

Traffic source or destination.
Software Component in DNI

Network Interface

Source/Destination Flows:
SF1 App1
has: DF1: App2

Routing (using Directions):

- Node: S1, Flow: DF1, via eth0, probability: 1.0
- Node: SW1, Flow: DF1, via eth1, probability: 0.5
- Node: SW1, Flow: DF1, via eth2, probability: 0.5
- Node: SW2, Flow: DF1, via eth1, probability: 1.0
- Node: SW3, Flow: DF1, via eth1, probability: 1.0
- Node: SW4, Flow: DF1, via eth2, probability: 1.0

Alternative using FlowRoute:
– exists, omitted for brevity
